

**KBH**KØBENHAVNS  
MØBELSNEDKERI

**KBH Københavns Møbelsnedkeri is a design brand committed to the craft of making handmade furniture. We are led by the urge to create high quality design and known for our unmistakable world of ideas and excitement. Since the brand was founded in 2006, we have left a strong fingerprint on private homes, shops, office spaces and restaurants around the world. Our very skilled and dedicated crew of craftsmen and designers is constantly looking to combine the tradition of well crafted design with new, innovative projects. You will find both our workshop, studio and showroom in Copenhagen - working closely together.**

**After a decade of being devoted to the task of creating custom kitchens and other furnitures, we are now ready to introduce our KBH New Classics Collection.**

**These pieces are designed to inspire the audience who seek for high quality design items, through an exceptional and exclusive retail experience, and will connect KBH to new places and likeminded people.**

**At this time the KBH New Classics Collection consists of tables, chairs, shelves, mirrors and lamps, as well as some accessories such as hooks and handles. Together, and seperately, they make an elegant statement as part of any interior setting. Some of the pieces of the collection are allready complimenting our custom designs with our wardrobes, kitchens and bathrooms using the KBH knobs, handles, lamps and spots. The New Classics demonstrates the importance of details and bringing together the right materials with innovative designs.**

**We hope that You will find the collection inspiring.**
